DETAILED ACTION

This office action is in response to the amendment received December 24, 2003. In accordance with the amendment, claims 24-26, 28, 29, and 31 have been amended, and claims 23, and 38-40 have been canceled. The amendment to the title has been acknowledged. Claims 24-37, and 41-44 are currently pending.

Allowable Subject Matter

1. Claims 24-37, and 41-44 are allowed.
2. The following is an examiner's statement of reasons for allowance: the relevant prior art does not teach or reasonably suggest an add/drop multiplexer having a second circulator, with, in order of rotation, a filter port coupled to the third optical port, a drop port, and an add port, as amended into currently independent claim 24. The relevant prior art does not teach or reasonably suggest the specific method limitations of claims 41-44, in which adding to the second arm (claim 41) after reflecting the line channel back through the acousto-optic switch or dropping an optical channel (claim 43) from the first arm of the second splitter occurs after reflecting back through the switch. The closest prior art of record (Schmid et al EP 0,768,555 A1, Seino U.S.P. No. 6,243,516) teach similar acousto-optic switching devices, however they do not teach the amended limitation of a second circulator in claim 24, or the explicit method limitations as claimed in claims 41-44.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2874

Response to Arguments

3. Applicant's arguments, see amendment, received December 24, 2003, with respect to claims 41-44 have been fully considered and are persuasive. The rejection of claims 41-44 to Schmid et al EP 0,768,555 A1 further in view of Chang et al. U.S.P. No. 5,611,004, and Seino U.S.P. No. 6,243,516 have been withdrawn for the reasons stated above.
